Withington, N. C., June 16, 1854.

To persons who have have had the sight of their yes so impaired as to require the use of Glasses, would recommend Mr. John Tohias as a smitable person from whom to obtain such Glasses as they may require, as he has smited me with a pair of Spectacles for a far and near sight. My sight has been impaired very much by a service of years in the Post Office Department, which berth required me to be on duty from 11 o'clock at night till after day, during which use I used but one light.

PORTAN ORTHOPARDIC INSTITUTION

After most careful examination of Mr. J. Tobias's Glasses. I am enabled to testify that their hardness, of rness, polishing, and exact optical shape, render them particularly recommendable to those whose needly optical impairment of the eyes are in want of uch auxiliaries. I consider, moreover, Mr. Tobias ally qualified to determine the focus of the eye, both by his optical knowledge and experience, and by means of his optometer. In addition, I can further state that Mr. Tobias has supplied some of my patients with Glasses, to their and my satisfaction.

(la,e editor:)

"I'aving suffered for many years past with weak ness of the eyes, and that defect of vision which results from a too constant and intense one of those sensitive organs, we were led to make a trial of Tobias's new and improved discovery for the eyes, whose name bessle this article. We saw them recommended by anothry gentlemen of Virginia, whom we know, and therefore had less hesitation in making the experiment. We are more than pleased with the article. We read with less fatigue with these lean than hy we had ever tried before; and we see more disjutely with them. Without meaning to disparage the laims of others, who have made improvements in Spectacle Lens, we deem it but just to make the above statement. Mr. Tobias resides on Seventh street, opposite the National Intelligencer office."

LYNCHBURG. November 1, 1854.

From an examination of Mr. Tobias's Glasses and from his observations and remaarks, an convinced that he is a skilful optician.

J. J. BLACKFORD, M. D. NORFOLK, V.A., July 27, 1854.

In the experies x. of even two years, I have found great difficulty in obtaining Spectacles that were ax actly adapted to the weakness of my sight. This in convenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more autitable Glasses. They are clear, chrystal-like, and comfortable to my eyes. I would commend him to those who, from age or other infirmity, require artificial aid in this way. J.J.SIMKINS M. D. Sha: The pair of Spectacles you furnished me yesterday are particularly satisfactory to me. They are very decidedly the best I possess and I am the owner of sight or nine pairs, carefully selected in different places, and from opticans recommended to me on account of their professional standing in France England, and I. e United States. I save been also pleased with your marks and directions on the treatment of the syst.

Respectfully yours, CHS, CALDWELL, Professor of M. C., Louisville, Ky, Mr. J. Tobias.

Washington, August 8, 1856.

Having been for years under the necessity of having two sets of glasses—one for use in the daylight, and one for tamplight—I procured one set from Mr. Pobias, which answared both purposes. I have used ais for several months, and find them excellent.

EDWARD STUBBS,

Of Department of State,
Paranssurae, October 21 1854.

About five years ago, I obtained from Mr. Tobias, by Washington, a pair of Glasses for the Spectacles which I used, and found them of great assistance to my decaying vision; and my opinion of him is that he is skillulin the preparation of glasses for eyes not too far gone to be benefited by such aid.

THE GREATEST DISCOVERY OF THE AGE! WOOD'

WOOD'S.

HAIR RESTORATIVE.

THIS Astonishing and Unequaled preparation, turns hair back to its original color, after having become gray, and reinstates it in all its original health, lustre, softness, and beauty; removes at once dandruff from the scalp, and all unpleasant itching, as well as all cutaneous eruptions, such as Scald heads, &c., and hence creates a perfectly healthy state of the scalp, by acting as a stimulant and tonic to the organs necessary to supply coloring matter to the hair, and completely restores them to their original vigor and strength, and thus prevents all tendency to become gray. It also provents the hair from becoming unhealthy, and falling off, and brings it out where it is gone by resuscitating the organs necessary to supply untriment, health, and coloring matter to it, and hence acts as a perfect Hair Invigorator and Tonic.

Charlestown, Mass., Aug. 9, 1855.

General Restonative when if its public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully, yours, &c.,

Mrs. R. A. STODDARD.

Wayserson, 1854.

Prof. O. J. Wood: With confidence can I recommend your Hair Bestorative as being the most efficacious article I aver saw. I have used the Wabpone and whiskers, which were almost white, have gradually grown dark, and I now feet confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

This dreadful disease is the penalty most frequently paid by those who have become the victims of improper indulgencies. Young persons are too apt to commit excesses, not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost soener by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most sorious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, &c.

ometimes with derangement of mind, were cured immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their apper tance, such as ulcerated sors threat, diseased lose, nocturnal pains in the head and limbs, dimess of pe rance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dearness, nodes on the shin bones and arms, blotches on the head, face, and extremities, progressing with frightful rapidity, fill, at last, the palate of the mouth or the bones of the nose fall in, and the citim of this awful disease becomes a horrid object of commisseration, till death puts a period to his draed-last figures he sending him to "that howese from

whonce no traveller returns." To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secrecy; and, from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

It is a melanchely fact that thousands fan victims to this dreadful complaint, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly poison, mercury, ruin the constitution, and either send the unfortunate sufferer to an untimely grave, or else make the residue of life miserable.
